

Company Introduction and Promotion

**Integrity cultivates quality
innovation leads the future**

COMPANY PROFILE

Shenzhen Equantu Technology Co., Ltd. is a global leader in the development and manufacturing of smart Muslim lifestyle products. Established in 2011, with headquarters in Shenzhen, China, and a branch office in Singapore, we uphold the philosophy of "Quality through Integrity, Future through Innovation." Our mission is to deliver superior smart solutions that enhance the everyday lives of users worldwide.

Leveraging nearly two decades of expertise in electronics manufacturing, Equantu has built a strong reputation for innovation and quality in smart Islamic products, including Quran players, Azan clocks, and Tasbeeh rings. Since 2021, we have strategically expanded into smart wearable devices, highlighted by the development of the Zikr Ring, a groundbreaking prayer counting smart ring that combines advanced technology with cultural traditions.

COMPANY PROFILE

Our experienced R&D team and extensive global sales network enable us to offer comprehensive OEM and ODM services tailored to diverse customer needs. With products reaching over 170 countries and an annual production capacity exceeding 2 million smart devices, Equantu continues to set industry benchmarks.

Looking ahead, we remain committed to advancing innovation in smart wearables and health management, integrating cutting-edge technologies to deliver personalized, intelligent solutions that empower users worldwide.

The Road to Innovation: Our Development Course and the Birth of Intelligent Health Rings

From Electronic Pioneers to Health Technology Leaders

From 2011 to 2021, we have been continuously deepening our efforts in the field of electronic products, especially in popular products such as Bluetooth speakers and book lights. Significant achievements have been made, gaining market recognition and user love

With the development of technology and changes in market demand, we have decided to embark on a new journey in November 2021 —The intelligent health ring project has been officially approved. This decision marks our transition from traditional electronic product manufacturers to the field of health technology.

Looking ahead to the future, we will continue to uphold the spirit of innovation and utilize our deep accumulation in electronic product research and development, Promote the rapid development of intelligent health ring projects and provide users with more intelligent and personalized health management solutions.
